## Slim Form with Colour LCD

### TFT Display

Unique Technology

### High-resolution TFT Colour LCD

The large, backlit 1.8-inch screen is easy-to-read, and the simple menu screen lets you access functions without confusion. The TFT (thin film transistor) LCD lets you see both characters and colour images with a GSM-like clarity that wasn't possible with conventional STN (super-twisted nematic) displays.

### Slim body and Layout free

Universal Design

### 24-mm Slim Body

Panasonic pursued a slimmer body without sacrificing wanted features. The result is an ultra-thin 24 mm from front to back. And, the trimmed thickness translates into less fatigue when operating the phone and talking, putting less burden on users. The slim design is repeated with the base unit, so it looks good anywhere you put it.

24 mm

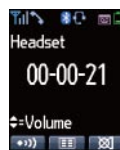

### Hands-Free Talk

Unique Technology

### Bluetooth on Handset

The signal can be transferred from the handset, via Bluetooth, to a Bluetooth headset for handsfree conversation. Phonebooks can also be transferred, via Bluetooth, from mobile phone to the handset and, so you can use the mobile phone phonebook data.

### Clearly earth-friendly

Ecology

### One Touch Eco Mode

Just press the dedicated ECO button. Signal output and power consumption are greatly reduced. In the Eco mode, the ECO indicator is clearly displayed on the LCD to show the Eco mode is activated.

**eco ideas** Stand-by power consumption below 0.5 W (excluding recharging time) due to our low-power circuit technology.

\* This logo cannot be used in some countries.

### Easy-to-Hear Features

Unique Technology

### Customized Sound System

The pitch of sounds that can be easily heard differs according to each person's age. The Customized Sound System lets you adjust the pitch of phone voices, so users of all ages can talk comfortably with sounds that are easy to hear.

### Know When Your Baby Cries

Unique Technology

### Baby Monitor

The handset detects sounds and automatically calls the other handset or a pre-registered external line. This monitoring feature lets you do housework away from your child as the handset detects your baby's crying.

### Upgraded Memo Alarm

Unique Technology

### Advanced Alarm Clock/Schedule

The alarm adds a new day-of-the-week setting as an option. The scheduling feature has also been upgraded, so users can check their schedule on a specific date. The snooze feature can also be set 5 times and in 5 min steps.

### Ample address memory

Unique Technology

### Phone book (3 number per station, total 500 number)

You can store up to 500 names and numbers in the handset's built-in memory for quick and easy access. You can also transfer individual names and numbers or the entire directory all at once to an optional handset.
